

DEUGRO HAULAGE LTD.

- Pulling Units, Hydraulic Axle Lines, Special and Support Equipment

Haulage Equipment

The deugro Group offers a broad range of logistics services around the world. Not only do you receive freight forwarding service from deugro, but you can also book a large variety of haulage equipment directly from us.

This means:

- We offer a combination of freight forwarding, heavy haulage and engineering.
- We are independent from any heavy lift contractor.
- Our equipment can be mobilized worldwide to any location.
- Your transport is arranged 100% by deugro.

We go where **nobody else goes.**

Operations with Our Own Equipment

deugro owns, operates and maintains its own fleet of prime movers, heavy duty hydraulic trailers, staging and installation equipment, which is available worldwide and can be mobilized to any destination. All equipment is operated and maintained by deugro's own technical staff.

This in-house expertise, combined with vast experience in handling heavy and oversize cargo, gives deugro a competitive edge.

Our equipment is commonly mobilized to countries where local equipment is either not available or is substandard.

- 120 hydraulic axle lines (Goldhofer)
- 6 heavy duty prime movers
- 14 standard pulling units
- 34 hydraulic low-bed, semi low-bed and extendable low-bed trailers
- 8 skidding beams (8.8m length, both sides)
- Hydraulic jacks (140 ton capacity each)
- Beams, stools, jacks

● MAN Wrecker 8 x 8

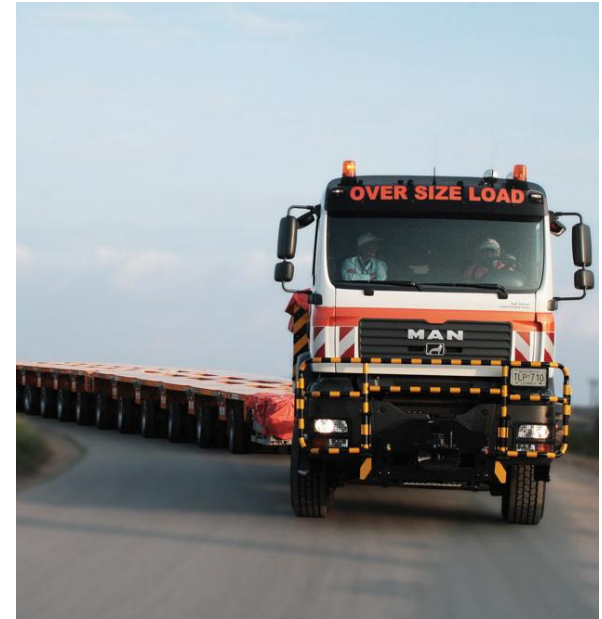

in total more than 14 pulling units....

Man 6x6 (Output 480 HP)

MERCEDES ACTROS 6x6 (Output 540 HP)

MAN 8 x 8

Pulling Units:

- 2 MAN 6x6s
- 1 MAN 8x8
- 1 Volvo 6x4
- 7 KAMAZ Prime movers

Wind Farm Equipment:

- 48 Tower adapter trailers, all built on hydraulic axle lines.

Hydraulic Axle Lines:

- We currently have a total of 120 hydraulic axle lines, and 48 of these axle lines have

been assembled with tower adapters for wind farm equipment. The tower adapters can also be used as normal axle lines.

Special Equipment:

- Stools, beams, steel blocks

Modular trailers set up as per project requirements

6 x 6 axles 30tons per axle

deugro's Staff

At deugro, we've assembled a team of the best minds in the freight forwarding and engineering industries, meaning we can provide efficient and creative solutions for any logistical challenge. The same applies to the haulage field. All vehicles are driven and maintained by deugro's own staff. Our drivers and mechanics are not only specially qualified for their jobs, but have also received additional training in HSE, Quality and Compliance, as well as dangerous goods and "super cargo." Our Integrated Management System ensures that we constantly measure our high standards and provide regular staff training.
